FB RETURNING TO THE NEWS.

LIFELOG (DARPA) ENDS > FB BEGINS

LIFELOG (DARPA) TEAM TRANSFER > FB

WHAT (DARPA) TEAM MEMBERS PAST/PRESENT WORK FOR FB?

WHAT DIVISIONS?

LOCATE (3) PUBLIC.

(9) TOTAL (6_NON PUB).

Social Media and Big Tech are under the control of CCP, CIA/MOSSAD. Lifelog was a project of the Defense Advanced Research Projects Agency (DARPA) of the U.S. Department of Defense (DOD) that captured the flow of one's personal experiences and interactions and makes them accessible using Artificial Intelligence AI. The project was supposedly canceled at the same time that Facebook was created in 2004. DARPA>LifeLog>FB. And Facebook even employed DARPA employees. Factor in other Big Tech involved with DARPA like Google, Twitter and YouTube, all on an Amazon cloud contract and you have the makings of a massive surveillance system. Embed these unremovable programs on Apple and Android devices and the Deep State can capture anything, anywhere. Especially since the inception of the Patriot Act after 9/11 which allowed for this type of massive surveillance. And FISA taught us how much they love to spy and how easily they can do it. Some owners seem to have connections to China or the Deep State, like Facebook's Mark Zuckerberg's wife is a Chinese national, Google's founder Sergey Brin was married to 23andme's founder Anne Wojcicki whose sister is Susan Wojcicki the CEO of YouTube. Even when Facebook is being investigated by the SEC for insider trading, the SEC Acting Director of the Division of Enforcement is Melissa Hodgman which is Peter Strzok's wife.

Not only do they spy on everyone, but they also use Big Tech to censor everyone as well. It's also used as a propaganda tool like the CIA/MOSSAD Mainstream Media. These information warfare tools were used to "defeat disinformation", at least their idea of disinformation, in the election and other key topics like news of Hunter Bidens Laptop, that they deem necessary to control. Suppression of legitimate news sites like Breitbart, New York Post and many others. Use of "Fact Checkers" to support their own narrative at the same time allowing CIA/MOSSAD Mainstream Media the far-left news. Legitimate news about the 2020 election results/audits or Covid-19 is severely moderated.

Sites like Facebook, Instagram, Snapchat, WeChat and Twitter are used for sex/human trafficking too, while Big Tech claims immunity through Section 230. Twitter was even sued twice by underage victims that were trafficked through its

website. Twitter knew about it and refused to remove the material and instead sent a response that the material did not violate any of their policies.

They are allowed to get away with these horrific acts as well as ban citizens of the world including President Trump from free speech due to law loopholes like Section 230 of the Communications Decency Act which claims Big Tech is protected from these actions because they are not publishers. Before leaving office President Trump signed an Executive Order on Preventing Online Censorship that basically made Big Tech a publisher, he also has filed a major class action lawsuit which allows anyone that has been banned for censorship to join in. However, we still have the threat of the ship missile system that can delay such actions.

(DARPA is Facebook exposed by Q in April 2018 then Fire in Building 8, destroys Facebook section. This caused the CIA/Mossad assets to chatter on XBOX and Play Station logs about the exposure, this led to a scrub of Google about that information and then Microsoft shutdown immediately after Q posted it. Facebook's Building 8 was not destroyed it was just being restructured into an AR/VR lab. So, they say, it's really a bulk data collection area for the NSA/CIA that would be illegal inside the US so they are able to run it in China. They also allow open access and pay for play, so they will give away the data for a price.

WHO HAS ACCESS TO BULK DATA?

(Facebook Building 8 applications still in use and data is given to China for a fee, Google is still working on Dragonfly for the Chinese. This is a modified search engine that takes out certain topics, China deems unnecessary to know about. Twitter tracks it all from the US. Google and Facebook listen in on your voice and text in "passive mode" as well as GPS monitoring. Twitter also tracks you via GPS. Once the apps are installed on the phones the code for spying cannot be removed, even if you delete all of the apps done under the guise of "marketing" to avoid any applicable laws.

"The companies were among more than 150 firms, including Amazon, Apple, Microsoft and Sony, that had cut sharing deals with the world's dominant social media platform." NYT

(Facebook has over 80+ offices worldwide including 3 in China, Google has offices in 74 locations and 4 offices in China, Twitter has over 32 offices worldwide and 2 in China. Outside offices could lead to bypassing US laws. In 2013 Amazon Services was given the CIA contract, Amazon AWS holds a \$600M contract to build and maintain the CIA's cloud network. Amazon has 235 offices worldwide and 14 offices in China. Any information gathered, foreign or domestic could escape US laws by having locations in communist areas.

THINK C_A INSTALL CAMPAIGN US HOUSE & SENATE INFILTRATION.

(With the spying capabilities of the cell phones the CIA has their dragnet mass surveillance system already in place. Whether the phones are off or not they can spy. And people carry their phones everywhere, so the entire US House and Senate have been spied on. Spy data will go up the chain of command. Brennan > Obama > Queen Elizabeth II)
